

Bedraggled Spanish Grandees Limp Into Portugal Port After Prison Break

Technocracy Is Speeding On Its Way To Success

Continued from Page One

hundred more men to speed the charting of technological unemployment, growth of production of 3,000 leading agricultural products in 100 years, and the like.

The new recruits have been promised by the Technocracy, Inc., of New York, of which Harvey D. Gibson, president of the Technocracy, is chairman.

The fulfillment of this plan will mean that 200 men will be brought in to the Columbia campus engaged in the first exhaustive "energy" survey of the United States.

Although the chart work is far from being complete, the data available are being used to the best benefit long held that the advance of the machine and the subordination of man to it would eventually lead to inevitable in a crisis in this and other highly industrialized nations.

Technocracy believes that this crisis is already with us in the United States, and that man and machines—reached a definite turning point in 1929, when 100 million of industrial employees deserted. The maximum of industrial production was reached in 1929, and the introduction of automatic mass production factories twelve years ago.

Technocracy is convinced that man's place in society is being threatened at such a rate that

the structure necessary before our destruction can be solved.

If Technocracy is accomplished nothing else, it has been to serve

attention on an entirely new school

of economic thought that is arising

in the past ten or twenty years in three highly industrialized countries: the United States, England and Germany. This new school is also being generated in Russia, and is in the process of being developed form because of the immaturity of the Soviet industrial system.

Technocracy is spreading its

doctrines on the basis that the

so-called "idle" man, that is,

the society of people in high

material comfort, is virtually

solved; that the societies of people

in high material comfort have

moved into a new order of

production, and into a new order

of life, and into a new order of

of work, and into a new order

of man at work.

This new school of thought,

which is derived from the methods of thinking it is making it

itself heard despite its scattered

and youthful nature, is the spokesman, in addition to Technocracy, three Englishmen, Major C. H. Clegg, Mr. J. H. Clegg, Fred Henderson, the latter being perhaps the first major project of this new school of thought.

In Germany the technical groups

are hard at work.

In America there are numerous

scattered voices being heard, par-

ticularly in the engineering field, and from Dr. Harold F. Clark, economist of Teachers College, Colum-

bia, New York, and others.

These men reach are diverse, but

their thinking is progressing in one general direction, and that is that man will have to be able to have

more leisure and more material

goods, and even more time to

be used to learn how to use his

new machines scientifically and to set up the proper methods of

distribution.

MOTIVATION FOR CHANGE

The motivation factor in this new school are bound to be technicians and scientifically-trained economists, and the scientific mind is projecting itself into the social sciences. It is too early to say that the technicians who will make them selves fit in the actual operation of the new order, but the new order of high energy production demands their assistance.

In this school we find scientific

principles being used in analyzing

the economic factors of production, distribution and consumption.

Its work is not through. It has a

long way to go, but its conclusions have indicated that the

engineer, for the first time, is

really interested in the social

problems of the technique of living.

Technocracy has challenged

the old school of thought, the

WHY TOLERATE BANDITRY?

On Friday two thugs robbed a bank in Vancouver, shooting the teller because he did not obey their orders promptly enough to suit them. On Thursday three armed men robbed a bank in Montreal, threatening to shoot the employees if they did not do as they were told.

There are too many occurrences of that kind in Canada and too many street hold-ups and bank robberies. The news columns show these crimes are becoming more rather than less frequent.

One of these days the judges will decide to make the occupation of the bandit unpopular. Then when a man is asked of his intentions under arms he will go to the penitentiary for twenty years. That will end the banditry business.

THE FORBIDDEN SUBJECTS

Experts are meeting at Geneva to draw up a program for the world economic conference, to be held somewhere sometime.

Two items will not appear on the program which should be there. Washington has refused to have anything to do with the gathering if war debts or tariffs are to be discussed.

The experts will have an interesting session whether or not the conference ever meets. Trying to find a solution for world stagnation without referring to war debts or tariffs will tax their ingenuity.

A world economic conference with these subjects discussed, would be about as hopeful as a consultation of doctors who were called together to prescribe for a patient but were told beforehand that they must disregard the facts that the man had broken his back carrying too heavy loads and that his circulatory system had ceased to function.

ONE OF OUR NEIGHBORS

Having left the city of Shantakuan, killed and buried out of the country, the Chinese made that point the base for further military operations in Chinese territory. Japan informs China that it "reserves the right to make demands" when the time for settlement comes.

A number of experts are agreeing that there is "right" and "wrong" when the time to present the demands will be when the fighting is over. The fighting will be over when Japan thinks its objective is gained.

Fighting in progress in the Orient and elsewhere, one of the demands will be that China pay an indemnity for putting Japan to the trouble and expense of beating it. With a proviso that until the indemnity is paid Japan will occupy so much Chinese territory as it thinks necessary. As China is too poor and degenerate to pay a heavy indemnity, the occupation will be indefinite, as in the case of Korea.

Those who think Canada should sell the few ships it has, and divest itself of the skeleton of a land defense force if it now maintains, might reflect that the country which is pushing its conquering army into North China lies just across the Pacific from the Canadian provinces of British Columbia.

HELPING CANADIAN PORTS

The depressed Canadian dollar is a blessing to Canadian ports and the railways which serve them, and the shipping companies and sailors who convey goods to and from them by sea.

To help our depressed dollar it is now cheaper to ship wheat overseas by way of Halifax or St. John than by way of the United States ports on the Atlantic coast.

Canadian freight rates are paid in Canadian money. U. S. rates have to be paid in United States money. The 12 to 14 per cent exchange makes the U. S. dollar a good deal more expensive. Such Canadian grain as is moving eastward is going to the Canadian ports.

If our dollar was still further depressed, the Canadian ports would profit most. They would in that case be the only Canadian ports in winter also when prices are most attractive, when in summer the St. Lawrence would be choked with vessels carrying the grain of both countries overseas.

MAKE IT A TEST CASE

It is suggested that the province should follow the lead of the city of Calgary and refuse to make bond payments in United States money.

The province, and the other cities in the province,

should refuse to pay the exchange differential until the Calgary case is tried and it is found whether they are legally bound to pay in U. S. dollars. That would not be defaulting. It would only be holding back a disputed sum until the law on the matter is determined.

To fully rights for you would be to invite bondholders of the province and of the other cities to sue them. That is not necessary and would be unnecessary.

Better to make the Calgary case a test case, carry it to a final decision, and accept that decision as settling the question for all cities and for the province.

No bondholder would be injured by that course. The cities and the province would escape the possibility of having to pay the costs of fighting separate actions. And no real injury could be done to either party.

The bondholders would get what they are entitled to. The municipalities and the province would pay what they are legally bound to pay. And the process of determining the point would be got through at minimum expense.

In this way the province can save the costs of making the Calgary case a test; and associate themselves with that city in preparing and presenting the arguments for payment in Canadian funds.

Forty Years Ago

From the files of the Edmonton Bulletin

Lord Aberdeen will probably be the next governor-general of Canada.

President Harrison may issue his proclamation resounding the bonding privileges without the authorization of Congress.

At a great banquet in Toronto, Sir John Thompson announced that the Government will adhere to the national policy.

John Haggard, minister of railways, promises to make the Intercolonial railway pay.

John Thompson, chairman of the world was won by Pauline of Mesopotamia.

Robert Hockley, late of Banff, has opened a barber shop two doors east of the Jasper House.

Red Fife wheat is said to have been originated by a farmer named Fife who lived at Otonabee, Ont., many years ago.

The Morden Herald has a long article on the hard times among the farmers of Manitoba and bemoans their condition on exclusive wheat growing. That is what northern Alberta has the advantage. This is the country for raised farming, which is the best paying business.

THIRTY YEARS AGO

W. J. Johnson has bought out the carriage business of the Royal Canadian Mounted Police.

J. Owens leaves on Monday for the south.

F. A. Richardson returned last night from south points.

P. McNaughton has built a new house on Nama Road.

Telephones line from St. Albert to Barrie, Rivière du Loup and the Alexander Reserve were completed on Wednesday by W. McKay.

The new school on Queen Avenue will be opened for attendance of teachers and pupils on Monday morning. The departments which are to be in the new school are: Ralmy's, Miss Osborne's, Miss N. Morris', Miss C. Chegwin's and Miss J. Miller's. The financial principal of the Edmonton Curriculum Club will commence on Wednesday evening at 8 o'clock and continues the balance of the week.

TWENTY YEARS AGO

The inauguration of the mail delivery system on the south side has been set for today.

Sarah Barnard appeared in the Empire theatre yesterday.

Brandon.—The Manitoba Grain Growers by resolution that a referendum be held on the question of making a contribution to the British Navy or of building Canadian warships.

Burns packing plant in north Edmonton is being rushed to completion.

TEN YEARS AGO

Mounted Police Veterans held their annual dinner in the Board of Trade rooms Thursday evening.

Brandon.—United Farmers of Manitoba at their convention here went on record as in favor of a constitutional board.

Palermo, Sicily.—Former King Constantine of Greece died here.

Appointment of the Police Commission to contract the City Police Force replacing the present arrangement by which the police are under contract, the mayor was approved by the special committee of the City Council appointed to look into the matter.

In face of the human suffering that is taking place, chiefly and fundamentally in the present dislocation of the economic life, one must suppose the so-to-say scientists consider themselves to be a distinct and distinct sort of a people living separate from the sphere of the human mind. They ought to be warned that if they persist with such an attitude regarding the present economic problems they lower their prestige of scientific status.

Not to be misunderstood, I wish to draw a distinction between science, scientists, and so-called scientists.

Technology was brought up at the congress of the American Association for the advancement of Science at Atlantic City. Here also the so-called scientist takes a negative stand and does not share with the economic problems the world is faced with today.

In face of the human suffering that is taking place, chiefly and fundamentally in the present dislocation of the economic life, one must suppose the so-to-say scientists consider themselves to be a distinct and distinct sort of a people living separate from the sphere of the human mind. They ought to be warned that if they persist with such an attitude regarding the present economic problems they lower their prestige of scientific status.

Go forth; and if it be o'er stony way,
Go, children of swift and tardy service;
And some are sung, and that was yesterday,
And some unsung, and that may be tomorrow.

Go forth; and if it be o'er stony way,
Go, children of swift and tardy service;
Tell them to grieve, for your hearts know Today;

And sweet is sweet, and that was yesterday,
And sweet is sweet, though purchased with sorrow.

Go, song, and come not back from your far away;
And if men call you why ye smile and sorrows;

Go forth; and if it be o'er stony way,
Go, children of swift and tardy service;

Tell them to grieve, for your eyes know Today;

And sweet is sweet, for your eyes know Tomorrow.

—Francis Thompson (1859-1907).

In view of the foreign debt situation, we are moved once more to recall the immortal lines of Podeh—was it Perlmuter?—"If the milk is sour it don't make no difference who left the teacup open."—Kansan City Times.

Let all things be done decently and in order.²² —1 Cor. 14:46.

SIDE GLANCES - By George Clark

Tomorrow's text will be selected by Rev. S. Adolph Carlson, Baptist Church, Killam.

The Passing Show

By J. S. Cooper

One night last week, in the city of Edmonton, Col. W. F. W. Cartairs laid down the presidency of the Royal North-West Mounted Police Veterans Association. He is a veteran of the veterans in the ranks of the Mounties and gold.

The day before, I had a long chat with him principally about his brother, J. S. Cartairs, provincial archivist for the Ontario government. "J.S." is a very good name. He is the best man of the Historical Association of his province, and took with him several permanentas of historical documents to add to the archives of Ontario.

He is a good man, and I hope he will vote that the Historical Society be re-designed in such a way that they would have a free drainage of any pus or mucous which may collect in them.

In understanding sinus trouble you must first understand that sinus trouble is not the disease, but the cellular crop of dead tissue that is the disease.

The cellular crop of dead tissue, which is the cause of the disease, is the result of the mucus, being connected with the nasal openings. The cavities of the cheek bones are called the antrum; the cavities in the forehead just over the eyes are called the frontal sinuses, and so on. These holes are lined with mucous membranes, which is served by the blood vessels. The sinus which collects in the sinuses and sinuses since from these it must drain out through very small openings which are also lined with mucous membranes, which may become swollen as a result of infection.

His sinus—granted, he is a man of the world, was one of the six members of the first Parliament of Canada. On his mother's side he is connected with one of the early French governors. The roots of his life are deeply buried in the pioneer families of both of the great Canadian provinces.

"A hundred-per-cent Canadian" I suggested—to which he replied with deep fervour "Yes and a hundred-per-cent British."

When you see Col. Cartairs, you see not only an offshoot of the great Canadian nation, but the very heart of the Canadian nation, from the day when the earliest settlers of the country took up residence in the land, to the day when the organized territories; you see the man who was Louis Riel's guard when the Rebellion ended in the capture of the famous rebel, and the man who was a commanding officer of the Unorganized forces of the Arrow expedition in the West African field force, penetrated into central west Africa, destroyed the Ju-ju God of human sacrifice and cannibal feast, and helped to uproot the organized slave trade of that nation.

When we buy up new Elders in the North, fighting against influences which would sacrifice the great grain trade of western Canada on the basis of "no grain, no money," and fighting to save the frontier, we overlook a duty to posterity when we let these splendid makers of Canadian history go unrecorded.

Health and Diet Advice

By Dr. Frank McCay.

SINUS TROUBLE IS USUALLY CATARHALIC

If doctors could re-design the human being, there are several features that they would considerably remove. For one thing, it would give the organs of the body better support so that when a man stands erect, the abdominal organs would not find it so easy to sag down, causing prolapse. Surgeons would probably omit the appendix altogether. If the appendix is of importance, it would be removed with a minimum of pain.

The day before, I had a long chat with him principally about his brother, J. S. Cartairs, provincial archivist for the Ontario government. "J.S." is a very good name. He is the best man of the Historical Association of his province, and took with him several permanentas of historical documents to add to the archives of Ontario.

His sinus—granted, he is a man of the world, was one of the six members of the first Parliament of Canada. On his mother's side he is connected with one of the early French governors. The roots of his life are deeply buried in the pioneer families of both of the great Canadian provinces.

CANADA-WIDE
CONFAB WILL
OPEN TUESDAY

Subjects of Varying Range
To Be Discussed at
Ottawa

OTTAWA, Jan. 16.—Premiers and cabinet ministers of the nine provinces and territories will meet in Ottawa today for the opening of the inter-provincial conference here tomorrow. With Premier R. B. Bennett and himself, the Federal government will call come to grips with a number of difficult and complicated problems, chief of which will be the possibility of establishing unemployment insurance in Canada.

Health and death, and two special topics from heading the delegations from their provinces will be the subjects of discussion. Mrs. wife took Premier S. F. Tolmie of British Columbia, at Winnipeg and Mr. J. C. Ross, of Alberta, to Victoria leaving Hon. J. W. Jones, finance minister, to carry on as best he can. The other nine provinces—Premier Gordon S. Hargrave of Nova Scotia, responsible for a series of operations and will be unable to attend.

The conference will have in mind some sort of a contributory system of unemployment insurance which will be the responsibility of the state and the state will share the expense of creating a fund to take care of the unemployed in time of work. In addition to canvassing the views of the provinces as to a Dominion-wide system, the conference will have to discuss how the state will be able to meet the cost, raised, wholly from the treasury of the Dominion or partly from the provinces or entirely from the provinces.

FOR THE THOUSANDS WHO HAVE
DEMANDS OF SOMETHING NEW IN THE
SCREEN—HERE IT IS!

STAR GAZING

Alice Jans

Alice Jans presents a striking silhouette as she poses for a photograph in a Hollywood film studio. "The Mind Reader" is the title of her latest picture.

AMUSEMENTS

RIALTO

The thousands of admirers of Renate Muller's art since her brilliant performance in "Sunshine Susie" will be able to see her again in another bright musical, "Marry Me," a lively and lovely successor to "Susie," which comes to the Rialto theatre on one week.

She is aided in this picture by a super cast, which includes Harry Green, George Robey, the charming comedian, Billy Caryl, Mrs. Evans, Charles Haines, and Ray Milland under the direction of Louis Motes.

STRAND
TODAY

As a girl who loves the cavorting fast motorboat thriller, "Fast Life" is offered on the Strand screen for two days with an exciting story of a girl who loves the fast life.

She is aided in this picture by Maureen O'Sullivan, Dorothy Peterson, Verree Teasdale and Ray Milland under the direction of Louis Motes.

PRINCE
TODAY

"Payment Deferred," which opened Saturday at the Prince, was based upon the play by Jeffrey F. Dell and was first produced in London by Gilbert Miller, who later took it to Broadway. It is a picture which attracted nation-wide attention. Charles Laughton plays the role of the middle-class bank clerk who

crosses the line into the underworld.

The romance ends in the only possible way. Ann Blyth gets into trouble and requires surgery.

Some of the most tuneful numbers will be heard in "Fast Life" and "Marry Me," which will run away with Edmonton film crown this week.

EMPIRE
TODAY

"Payment Deferred," which opened Saturday at the Empire, was based upon the play by Jeffrey F. Dell and was first produced in London by Gilbert Miller, who later took it to Broadway. It is a picture which attracted nation-wide attention. Charles Laughton plays the role of the middle-class bank clerk who

crosses the line into the underworld.

The romance ends in the only possible way. Ann Blyth gets into trouble and requires surgery.

Some of the most tuneful numbers will be heard in "Fast Life" and "Marry Me," which will run away with Edmonton film crown this week.

PRINCESS
TODAY

The Wall Street crash of 1929 and its effect upon the moneyed classes of the nation, particularly those in the financial field, is the theme of the picture. It is a picture which attracted nation-wide attention. Charles Laughton plays the role of the middle-class bank clerk who

crosses the line into the underworld.

The romance ends in the only possible way. Ann Blyth gets into trouble and requires surgery.

Some of the most tuneful numbers will be heard in "Fast Life" and "Marry Me," which will run away with Edmonton film crown this week.

GUNMEN HOLD HIGH CARNIVAL EAST, WEST

Two Alleged Robbers Shot
—Loot of \$1,000 in
Cash Taken

OTTAWA, Jan. 16.—Lawbreakers, including safe breakers, hold-up men, drug store robbers and house burglars, operating in widely scattered sections of the city, got away with \$1,000 in cash from a small store and household goods during the week-end.

The H. G. Bryce Bakers Limited was blown some time early Sunday morning. The beggars escaped with \$1,000.

Trussing up David Arnaud, an employee of a tramway company, two bandits shot him when he turned up with \$100 in currency.

The man who gave them these as H. G. Bryce and James Bernacki, were captured in an Elmwood drug store. They were shot when they were looting the premises. Four trailer car constable made the arrests.

**Guns Blaze in
Beer Hall Robbery**

OTTAWA, Jan. 16.—Guns blazed for the second time within 48 hours in a hold-up here. Saturday night, two men, one of whom was a police constable, were shot in a beer hall.

Two men, one of whom was a police constable, were shot in a beer hall.

Shortly after 11 o'clock Saturday night, two men in a car, later found to have been robbers, stopped in front of the beer parlor on Peel street. London's engine running, the two adjusted their uniforms, the pretense of the police.

One of the men, a constable, who had been on duty with a Canadian Pacific Railway policeman in the police station, was shot in the head.

Seeing the gun leave the car and point at their backs, Shearer and his partner, Constable H. G. Bryce, ran out of the street to the car. Shearer had just turned off the engine when the two men, who had been looting the beer parlor, leaped out and shot him.

The wounded pair were taken to hospital, where Shearer was found to be suffering from a superficial wound in the forehead, and Bryce from a bullet wound in the arm.

Both men are in a serious condition.

One of the men gave the name of a man who was found to be an inmate of the city jail.

Shearer recovered from the fire and was able to get into his uniform again.

The third, who was later found to have been carrying the lost object, was shot in the head.

The robbers reached Bacon's Island and a fishing camp where the injured constable was found.

He was found to be in a serious condition.

Election Now Would Wipe Out Brownlee Gov't Howson Says

Liberal Leader Says People Opposed to Present Administration

That the time has come in the provincial government if an election were called at the present time, and that Premier Brownlee's administration would be wiped out if the opinion expressed here Monday by W. R. Howson, M.L.A., who has been a member of the cabinet through Tabor, Letchford, Warner, Cardston, Macleod and even through the present cabinet.

"Every place I visited I found the people very much opposed to the Brownlee government, and that many former supporters of that administration not only expressed their opposition but said that they actually became members of the new Liberal executives that were formed in their constituencies; he said.

SWING TO LIBERALISM

The Liberal leader will return to the legislature this week. C.P.R. was not meeting here in the south. The farmers are not going to be misled and the people are not going to be misled. It is merely a move to cover the failure of the Brownlee administration. The people are generally felt that there will be as big a swing to the Liberal party as there was from the U.P. to the Liberals in 1921. The people are tired of various misleading statements and are not going to be misled. They are beginning to find out the real facts as to our financial condition and the people are beginning to dissatisfaction with the excessive waste that has been going on in the administration of the internal affairs under the Brownlee government.

George H. Webster, M.L.A., and J. Bowlen, M.L.A., seconded the Liberal leader's motion, and the bill was then held all over the south country.

NEW MACDONALD MANAGER HERE

H. W. Aslin, manager of the MacDonald hotel in succession to H. H. Tillman, who leaves soon for the Fort Garry at Winnipeg, arrived in the city Monday to take over his new duties. He is to be a faithful and polished man who looks like he might have raised a hand in a plumb line during his 15 years here.

At a meeting which filled the small hall at East Coulee to overflowing, the members overwhomingly favored the proposals outlined by James Stiles, president of the MacDonald hotel, to be disclosed to Mr. Aslin.

Then Court Clerk Henderson called for the manager to come in and come into court to answer to the charges of the manager of the hotel, Dr. Clarence E. Eastwood, and Dr. F. D. MacPherson were each called three times to the witness stand.

It is estimated that between seven and eight hundred men will be affected.

Under MINER'S MISAPPREHENSION

Edward Esperante came to police headquarters to say that he had been beaten up by a keeper of a city gambling house, and that he had been beaten up by the alleged joint, which he claims is run in conjunction with a hotel. He claims he was beaten up into a card game. The keeper, complained Esperante, refused to let him cash out his chips, insisting on sitting in on the game, but the only reward he got for his trouble was a beating.

CITY SECURES BANK CREDIT OF \$1,800,000

Money Will Be Used in Meeting Current Expenditures

Edmonton has secured a loan of \$1,800,000 from the bank for 1933 amounting to \$1,000,000, it was announced Monday by Commissioner David Mitchell. This credit, approximately the same as that received in 1932, will be used to meet the city's current expenditure until such time as the first payment of 1933 is received. It is expected that the initial payment of these taxes will fall due in May, and the city will then have to meet its prepayments of 1932 taxes and property taxes.

MINE UNION TO MAKE DEMANDS

DRUMHELLER, Alta., Jan. 16.—Demands for recognition of the Mine Workers Union of Canada will be made by the operators in the East Coulee area and by the miners at the Maple Leaf Colliery at Lethbridge with proposals for a uniform agreement.

At a meeting which filled the small hall at East Coulee to overflowing, the miners overwhomingly favored the proposals outlined by James Stiles, president of the MacDonald hotel, to be disclosed to Mr. Aslin.

Then Court Clerk Henderson called for the manager to come in and come into court to answer to the charges of the manager of the hotel, Dr. Clarence E. Eastwood, and Dr. F. D. MacPherson were each called three times to the witness stand.

It is estimated that between seven and eight hundred men will be affected.

UNDISCOVERED MURKIN

Under MINER'S MISAPPREHENSION

Edward Esperante came to police headquarters to say that he had been beaten up by a keeper of a city gambling house, and that he had been beaten up by the alleged joint, which he claims is run in conjunction with a hotel. He claims he was beaten up into a card game. The keeper, complained Esperante, refused to let him cash out his chips, insisting on sitting in on the game, but the only reward he got for his trouble was a beating.

At a meeting which filled the small hall at East Coulee to overflowing, the miners overwhomingly favored the proposals outlined by James Stiles, president of the MacDonald hotel, to be disclosed to Mr. Aslin.

Then Court Clerk Henderson called for the manager to come in and come into court to answer to the charges of the manager of the hotel, Dr. Clarence E. Eastwood, and Dr. F. D. MacPherson were each called three times to the witness stand.

It is estimated that between seven and eight hundred men will be affected.

BAPTISTS HERE FOR CONVENTION

The first of 60 western Canadian Baptists Union to be held in this country Tuesday, Wednesday and Thursday in the city, will be held in conjunction with special services to mark the 50th anniversary of First Baptist Church.

These meetings will be open to the public and will be followed by a massed choir from all Baptist churches in the city under the direction of F. G. Simons.

Charles Bentall of Vancouver will preside over the general session, and the general secretary of the Baptist Union, Rev. W. C. Smiley of Edmonton, will speak.

Speakers at the meetings include Dr. John MacLean, president of Western University, and Rev. R. H. Price who will describe conditions in the far flung parts of the globe, visited by them during their recent tour of the Americas. Theological schools, Russia, Central and Eastern European countries, Japan, China, India, Australia and the American republics will form the subject of the speakers.

Credit Situation Studied By Group Of Business Men

Discussion of currency and credit problems featured a round-table conference of a large number of business men at the Hotel Alberta yesterday. Shasta Cafe, George G. Coote, P.M., for Macleod led the discussion.

Members of the gathering piled the problems on with questions, and his associates are advancing in the House of Commons.

At the meeting the members were made by Jack Marshall, and the group plan to invite the members to meet the monetary problem to address a similar gathering in the near future.

ON SALE at NINE-THIRTY

When the clock ticks 9:30 Tuesday morning we're drawing the covers off a bevy of Anniversary Sale Specials, certain to galvanize into action those who delight to buy economically. News of thrifty importance and timely interest.

Service-Sheer Silk Hose

Fully Fashioned and in Ten Smart Shades
Such a variety of colors—each one equal to the demands of a day-in-day-out service. The imperfections? Try to find them! Full-fashioned, and fitted with a slender heel. Ten shades, 8½ to 10. On Sale at 9:30: 69c

PAIR, —Hosiery Section, Second Floor

Rayon Lingerie in the Sale

Gowns, Slips, Pyjamas, "Odd" Undies!
Underwear you'll pay 75c and 85c in the usual way—they're higher pricings. Colorful, smartly fashioned things; the gowns, the others are pale pastels with touches of lace and embroidery. Small, medium and large sizes. ANNIVERSARY SALEGARMENT OR SET.
